WHY HOME HEALTH CARE AND/OR PERSONAL CARE AND ASSISTANCE?

HOME HEALTH: Nurses and Therapists are available to assist with an array of skilled services which are designed to prevent hospital stays and reduce visits to the doctor. **FAMILY HOME HEALTH** develops a Plan of Care and coordinates all services with the patient's physician and other caregivers.

PERSONAL ASSISTANCE: Personal Care and Assistance means you or your loved one will be able to stay at HOME. Qualified care givers act as an extended family to insure all personal needs are met and to monitor the safety of the individual in their own environment.

COSTS: Costs of Home Health is generally covered under Medicare or Private Insurance. Personal Care and Assistance may be covered by private insurance and is often less costly and disruptive than a move to an Assisted Living or Nursing Home Facility.
